PROFESSIONAL SUMMARY

Results-oriented **Data & Systems Administrator** with 7+ years of experience in **Reporting Automation**, **Dashboard Design**, and **Operational Strategy**. Expert in **Power BI**, **Excel**, and **Python** for building robust reporting suites and streamlining complex integrations. Proven ability in **Workforce Forecasting**, **IVR/Call Logic Optimization**, and driving efficiency in high-volume operational environments (Uber, PayPal).

WORK EXPERIENCE

Senior Product Analyst (Systems & Ops), PayPal Bangalore | 04/23 – Present

- **System Integration & Reporting:** Architected scalable **Power BI/Tableau solutions** to track operational KPIs, offering real-time visibility into system performance for 100+ stakeholders.
- **Process Automation:** Streamlined reporting workflows using **Python/SQL**, reducing manual data handling by 40% and ensuring data integrity across integrated platforms.
- **Performance Optimization:** Partnered with engineering to refine **data integrations** and metric definitions, directly improving the accuracy of operational dashboards and forecasting models.
- **Technical Support & Troubleshooting:** Acted as a Tier-2 escalation point for data discrepancies, resolving reporting incidents and ensuring 99.9% uptime for critical business dashboards.

Product Analyst, OLX Autos Gurgaon | 07/22 – 03/23

- **Sales & Lead Performance:** Designed intuitive dashboards to track **lead conversion** and **agent performance**, driving a **10% increase in lead generation ROI**.
- **Operational Insights:** Analyzed user flows and support interactions to identify bottlenecks, implementing process changes that improved **customer retention** and service efficiency.
- **Data-Driven Strategy:** Collaborated with business teams to define "Golden Metrics" for sales effectiveness, enabling leadership to make rapid, informed staffing decisions.

Business Analyst (Operations), Uber Hyderabad | 08/21 – 07/22

- **Workforce & Yield Management:** Developed **forecasting models** to optimize supply-demand balance (staffing/driver availability), directly enhancing operational efficiency and yield.
- **Automated Dashboarding:** Built dynamic **Power BI** and **Excel** dashboards from scratch, automating 35+ daily operational reports and saving 20+ man-hours weekly.
- **Metrics Analysis:** Monitored key operational metrics (Wait Times, Utilization) to identify service gaps, providing actionable recommendations to improve **SLA compliance**.
- **Incident Resolution:** Collaborated with ops teams to troubleshoot real-time outages and anomalies in the dispatch system, minimizing downtime impacts on service levels.

Analyst, Aditya Birla Bangalore | 07/18 – 07/21

- **Resource Optimization:** Analyzed inventory and production data to forecast requirements, reducing waste and optimizing **headcount allocation** for shift-based operations.

SKILLS

- **Systems & Tools:** **Power BI**, **Excel (Advanced)**, **Tableau**, **Salesforce (Integrations)**, **Python**, **SQL**.

- **Operations:** **Workforce Management**, **Forecasting**, **Call Center Metrics**, KPI Definition, SLA Monitoring.
- **Technical:** Automation, Data Modeling, API Integration concepts, A/B Testing, Scripting.

EDUCATION

BITS Pilani 2014 – 2018

- B.Tech - Chemical Engineering
