PROFESSIONAL SUMMARY

Outcome-driven **Analytics Leader** with 7+ years of experience in **Data Science**, **Product Analytics**, and **MLOps**. Proven track record in driving **marketing measurement**, **customer targeting**, and **strategic decision-making**. Experienced in leading data practices, mentoring analysts, and designing scalable **solution architectures** (Tableau/Power BI). expert in transforming complex data into real business outcomes across **Fintech**, **Marketplaces**, and **Operations**.

WORK EXPERIENCE

Senior Product Analyst (Analytics Leadership), PayPal Bangalore | 04/23 – Present

- **Data Science Practice & Leadership:** Mentored 2 junior analysts on SQL/Python best practices and A/B test design, defining the analytics roadmap for high-priority product lines.
- **Measurement & Strategy:** Partnered with Strategy and Engineering teams to design **outcome-driven** KPIs, directly influencing investment priorities and product roadmaps.
- **Solution Architecture:** Developed scalable Tableau dashboards delivering real-time visibility into 50+ KPIs for 100+ stakeholders, enabling rapid, data-backed decision-making.
- **Targeting & Experimentation:** Led design and analysis of A/B tests to forecast trends and optimize feature adoption, driving measurable user growth.

Product Analyst, OLX Autos Gurgaon | 07/22 – 03/23

- **Customer Understanding & Targeting:** Analyzed user behavior to reduce Zero Result Pages (ZRP) by 40%, significantly improving search targeting and user retention.
- **Marketing Use Cases:** Led the analytics for a new car comparison feature, driving a **10% increase in lead generation** (Marketing ROI) and supporting outcome-driven growth initiatives.
- **Data Visualization:** Designed intuitive dashboards to track funnel conversion and search quality, enhancing the Product team's ability to iterate fast.

Business Analyst, Uber Hyderabad | 08/21 – 07/22

- **MLOps & Automation:** Automating 35+ BAU reports using **Python** and **SQL**, saving 5+ hours of manual effort weekly and streamlining data operations.
- **Dashboard Design:** Built dynamic executive dashboards from scratch using **Power BI** and Python, providing automated daily insights for leadership.
- **Strategic Insights:** Delivered data-driven recommendations that optimized unit economics and yield management for the Uber for Business (U4B) vertical.

Analyst, Aditya Birla Bangalore | 07/18 – 07/21

- **Process Optimization:** Analyzed yield and inventory data to identify bottlenecks, driving cost-saving improvements in production operations.
