Professional Summary

Results-driven **Product Data Scientist** with 6+ years of experience in **User Behavior Analytics**, **App Ecosystem Growth**, and **Monetization Strategy**. Expert in translating complex user data into actionable product insights to drive **Engagement**, **Developer Success**, and **Retention** (LTV). Proven track record at **PayPal**, **Uber**, and **OLX** in leading **strategic business reviews**, designing **A/B tests**, and partnering with PM/Engineering to shape product narratives. Skilled in **SQL**, **Python**, and **Causal Inference** to solve open-ended problems in the mobile/platform space.

Work Experience

PayPal | Senior Product Analyst | Bangalore | 04/2023 – Present

- Partnered with **Product** and **Partner Ecosystem** teams to analyze **developer success metrics** and **app monetization**, generating insights that drove a 15% increase in **platform adoption**.
- Designed and maintained comprehensive **product health dashboards** (Tableau/Looker) to enable **self-service analytics** for PMs, ensuring real-time visibility into **user engagement KPIs**.
- Developing **causal inference models** using **Python** and **SQL** to measure the impact of **feature launches** on long-term retention, reducing analysis turnaround time by 40%.
- Conducted deep-dive **churn analysis** to identify friction points in the **user journey**, recommending product changes that improved retention for high-value segments.
- Mentored junior analysts on **experiment design (A/B testing)** and **data storytelling**, fostering a culture of rigorous, data-driven decision making.

OLX Autos | Product Analyst | Gurgaon | 07/2022 – 03/2023

- Acted as a strategic partner to the sales leadership, providing deep-dive analysis on **lead conversation** and **sales funnel efficiency**.
- Optimized **resourcing** and sales operations by developing a reporting framework that highlighted **team performance** and **revenue attribution**.
- Collaborated with engineering to ensure **data accuracy** and maintain a **single source of truth** across all sales and client reporting systems.

Uber | Business Analyst | Hyderabad | 08/2021 – 07/2022

- Supported the **Uber for Business (U4B)** client strategy, analyzing **B2B customer behavior** to inform **sales & account management** initiatives.
- Built and managed **end-to-end data pipelines** to ensure client data accessibility, enabling faster decision-making for regional leadership.
- Automated 35+ critical business reports using **Python (Pandas)**, allowing the team to focus on strategic analysis rather than data gathering.

Aditya Birla | Analyst | Bangalore | 07/2018 – 07/2021

- Analyzed process data to identify inefficiencies, recommending **strategic improvements** that optimized operational costs and improved margins.
- Utilized quantitative methods to support **business decision-making**, ensuring alignment with broader organizational goals.

Skills

- **Product Analytics:** User Segmentation, Cohort Analysis, A/B Testing & Experimentation, Funnel Optimization, KPI Definition (North Star Metrics), LTV/CAC Analysis.
- **Statistical Methods:** Causal Inference (IPW, DiD), Hypothesis Testing, Regression Analysis, Predictive Modeling.
- **Tools & Tech:** SQL (Advanced), Python (Pandas, Scikit-learn), R, Tableau, Looker, BigQuery, Airflow, Git.
- **Soft Skills:** Strategic Business Reviews, Collaborative Problem Solving, Data Storytelling, Stakeholder Management.

Education

- **BITS Pilani** | B.Tech - Chemical Engineering | 2014 – 2018
- **Certifications:** Google Data Analytics Certificate (Coursera)
