Professional Summary

Results-driven **Senior Product Analyst** with 6+ years of experience in **FP&A Analytics**, **SaaS Growth Strategy**, and **Data Engineering**. Expert in defining and tracking key SaaS metrics like **ARR**, **NRR**, and **Churn** to drive financial performance. Proven track record at **PayPal**, **OLX**, and **Uber** in building robust **ETL/ELT pipelines**, optimizing **Snowflake** data warehouses, and leveraging **Python** and **SQL** for complex financial modeling. Experienced in automating reporting bottlenecks and exploring **GenAI** applications to enhance business insights.

Work Experience

PayPal | Senior Product Analyst | Bangalore | 04/2023 – Present

- Partnered with Finance and Product leadership to drive **strategic financial analytics**, defining KPIs for **Revenue Growth** and **Margin Optimization**.
- Manipulated complex datasets using **expert SQL** to build advanced reporting models, providing deep visibility into **Customer Retention** and **Lifetime Value (LTV)**.
- Innovated reporting processes by automating 50+ critical financial reports using **Python**, significantly reducing manual effort and improving forecast accuracy.
- Collaborated with engineering to optimize **dbt projects** and data pipelines, ensuring data consistency and logic correctness for financial reporting.
- Mentored junior analysts on **SQL optimization** and **Python** best practices, fostering a culture of technical excellence.

OLX Autos | Product Analyst | Gurgaon | 07/2022 – 03/2023

- Led data-driven initiatives to improve **Unit Economics**, identifying revenue leakage points and recommending strategies that increased **lead generation** by 10%.
- Built and maintained **Tableau dashboards** to track operational efficiency and financial metrics, facilitating rapid decision-making for senior stakeholders.
- Conducted rigorous **A/B testing** to optimize pricing strategies and improve **conversion rates**, directly impacting the bottom line.

Uber | Business Analyst | Hyderabad | 08/2021 – 07/2022

- Supported the **Uber for Business (U4B)** SaaS vertical, analyzing **ARR** and **Churn** trends to inform B2B growth benchmarks.
- Developed dynamic **dashboards** using **SQL** and **Python** to monitor system performance and financial health, enabling proactive issue resolution.
- Automated weekly business reviews (WBR) and financial reporting, saving 20+ hours per week and ensuring timely insights for leadership.

Aditya Birla | Analyst | Bangalore | 07/2018 – 07/2021

- Analyzed **inventory data** and supply chain costs to recommend **cost-saving improvements**, optimizing working capital and process efficiency.
- Utilized **quantitative analysis** to streamline operations and maximize yield, contributing to improved margins.

Skills

- **Analytics & Finance:** FP&A Analytics, SaaS Metrics (ARR, NRR, Churn), Financial Modeling, Forecasting, A/B Testing.
- **Data Engineering:** SQL (Expert), dbt, Snowflake, ETL/ELT Pipelines, Airflow, Data Warehousing.
- **Languages & Tools:** Python (Pandas, NumPy), R, PySpark, Databricks, BigQuery.
- **Visualization:** Tableau, PowerBI, Looker, Google Data Studio.
- **Emerging Tech:** GenAI concepts, LLM applications (LangChain exposure).

Education

- **BITS Pilani** | B.Tech - Chemical Engineering | 2014 – 2018
- **Certifications:** Google Data Analytics Certificate (Coursera)
