PROFESSIONAL SUMMARY

Results-driven **Data Scientist** & Product Analyst with 6+ years of experience leveraging **data science**, **machine learning**, and **advanced analytics** to drive **product strategy** and business growth. Expert in **SQL**, **Python**, and **A/B testing**, with a proven track record of solving complex product problems, optimizing **user experience**, and influencing investment decisions. adept at telling stories with data to diverse cross-functional partners across Engineering, Product, and Finance.

WORK EXPERIENCE

Senior Product Analyst (Data Science), PayPal

Bangalore | 04/23 – Present

- Partnered with Product and Engineering to define goals, design rigorous **A/B tests**, and **forecast trends**, directly influencing product roadmaps and investment priorities.
- Applied **statistical concepts** and **predictive modelling** to identify opportunities, ensuring products bring measurable value to the business and users.
- Developed scalable **Tableau** dashboards and data visualizations for PayPal Shopping, delivering real-time visibility into 50+ KPIs for 100+ stakeholders.
- Mentored junior analysts on **SQL**, **Python** best practices, and experimental design.

Product Analyst, OLX Autos

Gurgaon | 07/22 – 03/23

- Reduced **Zero Result Pages (ZRP)** by 40% through data-driven **A/B testing** and **user behavior analytics**, significantly improving search engagement.
- Led the development and launch of a car comparison feature, driving a 10% increase in lead generation and supporting **product growth** initiatives.
- Collaborated with cross-functional teams to identify bottlenecks and optimize the user journey using data insights.

Business Analyst, Uber

Hyderabad | 08/21 – 07/22

- Delivered data-driven insights by partnering with stakeholders and automated 35+ BAU reports using **Python (Pandas, NumPy)**, saving 5+ hours of manual effort weekly.
- Built a dynamic U4B dashboard from scratch using **Power BI** and Google Sheets for automated daily data updates.
- Conducted deep-dive analysis to improve operational efficiency and reliable data reporting.

Analyst, Aditya Birla

Bangalore | 07/18 – 07/21

- Supported production and operations teams by analyzing yield, process efficiency, and inventory data to identify bottlenecks and recommend cost-saving improvements.
