PROFESSIONAL SUMMARY

Results-oriented **Senior Data & Analytics Engineer** with over 7 years of experience in designing **Scalable Data Pipelines, Dimensional Data Modeling, and Analytics Infrastructure**. Expert in **Advanced SQL, Python** automation, and building **modular transformations** (dbt-style) to drive business intelligence. Proficient in **Cloud Platforms** (AWS/Azure), **Spark**, and **BI Tools** (Tableau). Proven track record of orchestrating high-volume **ETL/ELT workflows** and enabling data-driven decision making at top-tier organizations like **PayPal, Uber, and OLX**.

EXPERIENCE

Senior Product / Lead Analyst, PayPal – Bangalore

April 2023 – Present

- **Scalable Data Pipelines:** Led the research and development of **data solutions** for key operational pillars, designing **automated Pipelines** using **Python and Advanced SQL** to support scalable reporting.
- **Data Engineering Workflows:** Orchestrated **ETL/ELT pipelines** and data processing workflows, reducing manual reporting data retrieval time by **40%+** and ensuring **data quality** and consistency.
- **Dimensional Modeling:** Designed and implemented **structured data models** and metrics layers, translating ambiguous business questions into testable, modular logic for analytics consumption.
- **Automation & Optimization:** Optimized complex queries and **transformation logic**, utilizing **window functions** and **CTEs** to improve performance and reliability of data delivery.
- **Mentorship:** Mentored junior associates in **modern analytics stack** practices, **SQL optimization**, and **Python** development, fostering a culture of technical excellence.

Product Analyst, OLX Autos – Gurgaon

July 2022 – March 2023

- **Data Infrastructure:** Utilized **SQL and Python** to build robust **data processing systems**, enabling real-time tracking of funnel metrics and empowering business teams with actionable insights.
- **Analytics Engineering:** Developed **semantic layers** and metrics to refine user targeting, designing strategies that improved **lead conversion** and optimized **media spend allocation**.
- **Impact Analysis:** Implemented **causal inference techniques** to measure data product impact, establishing clear lineage between data quality improvements and business outcomes.

Business Analyst, Uber – Hyderabad

August 2021 – July 2022

- **Operations Analytics:** Optimized **logistics workflows** for **Uber for Business (U4B)** by automating **35+ operational reports**, saving **5+ hours of manual effort weekly** through efficient **SQL** scripting.
- **Process Design:** Documented and designed **analytical process flows**, building dynamic **dashboards** (Tableau) to monitor supply chain metrics and identify bottlenecks.
- **Performance Tuning:** Conducted **root cause analysis** on data discrepancies and optimized query performance for large-scale logistics datasets.

Analyst, Aditya Birla Group – Bangalore

July 2018 – July 2021

- **Supply Chain Data:** Performed rigorous analysis on **manufacturing data** to identify inefficiencies, utilizing **statistical methods** to improve yield and reduce downtime.
- **Inventory Optimization:** Collaborated with cross-functional teams to improve **forecast accuracy**, utilizing data-driven approaches to optimize inventory levels.

EDUCATION

B.Tech in Chemical Engineering, BITS Pilani

2014 – 2018

SKILLS

- **Languages & Frameworks:** Python (Pandas, NumPy), Advanced SQL (Window Functions, CTEs), Spark, Scala
- **Data Engineering:** ETL/ELT, Data Pipelines, Dimensional Modeling, dbt concepts, Airflow
- **Cloud & Databases:** AWS, Azure, Snowflake, Redshift, Docker, CI/CD
- **BI & Analytics:** Tableau, Power BI, Looker, Statistical Analysis, A/B Testing
