PROFESSIONAL SUMMARY

Results-driven **Product Data Scientist** with 6 years of experience in **Product Analytics**, **Process Intelligence**, and **Statistical Modeling** within hyper-growth SaaS and B2C environments. Expert in translating complex user telemetry and **journey data** into actionable insights that drive product strategy and engineering decisions. Proficient in **Python**, **SQL**, and **Machine Learning**, with a proven track record of building **data pipelines**, validating hypotheses through **A/B testing**, and communicating critical findings to stakeholders through compelling data storytelling.

WORK EXPERIENCE

Senior Product Analyst | PayPal Bangalore | 04/23 - Present * **Product Analytics & Strategy:** Partnered with Product and Engineering teams to define data solutions and metrics, leveraging **statistical models** to optimize the PayPal Shopping experience. * **Data Storytelling & Visualization:** Created comprehensive Tableau dashboards to interpret product telemetry and user journey data, facilitating evidence-based decision-making for 100+ stakeholders. * **Hypothesis Validation:** Designed and executed rigorous **A/B tests** to validate product hypotheses, quantifying risk and identifying opportunities for feature optimization. * **Cross-Functional Leadership:** Facilitated data-driven discussions between engineering, design, and business teams, translating complex analytical findings into clear strategic recommendations.

Product Analyst | OLX Autos Gurgaon | 07/22 - 03/23 * **User Journey Analysis:** Conducted exploratory analysis on customer behavior data to identify outliers and friction points, directly informing product roadmap priorities. * **Algorithmic Optimization:** Collaborated with engineering to refining search algorithms through **data-driven insights**, achieving a 40% reduction in Zero Result Pages (ZRP). * **Impact Quantification:** Quantified the impact of new feature launches on user retention and engagement, enabling the leadership team to make tactical product decisions.

Business Analyst | Uber Hyderabad | 08/21 - 07/22 * **Data Pipeline Development:** Built and maintained **automated data pipelines** using **Python (Pandas)** to collect and organize operational data, ensuring high data quality for analytic assets. * **Infrastructure Utilization:** Monitored and analyzed infrastructure and operational metrics, transforming raw data into analytic assets that drove efficiency improvements. * **Stakeholder Enablement:** empowered business teams with self-serve analytics tools (PowerBI/Google Sheets), fostering a culture of evidence-based decision making.

Analyst | Aditya Birla Bangalore | 07/18 - 07/21 * **Process Intelligence:** Analyzed manufacturing process data to identify inefficiencies and bottlenecks, recommending evidence-based process improvements. * **Operational Metrics:** Interpreted critical operational data to streamline workflows and optimize resource utilization.

SKILLS

- **Analytics & Data Science:** Product Analytics, Statistical Modeling, A/B Testing, Exploratory Data Analysis, Hypothesis Testing.
- **Languages & Tools:** SQL, Python (Pandas, Scikit-learn), Tableau, PowerBI, Excel.
- **Core Competencies:** Data Storytelling, Stakeholder Management, Process Mining Concepts, SaaS Metrics.

EDUCATION

B.Tech - Chemical Engineering | BITS Pilani *2014 - 2018*

CERTIFICATIONS

- **Google Data Analytics Certificate** - Coursera
