PROFESSIONAL SUMMARY

Results-oriented **Senior Data Analyst** with over 7 years of experience in **Business Intelligence**, **Strategic Operations**, and **Data Automation**. Expert in delivering scalable data solutions using **Power BI**, **SQL**, and **Python (Pandas, NumPy)** to drive operational efficiency and client retention. Proven track record of spearheading **automation initiatives**, reducing manual reporting efforts by **40%+**, and partnering with global stakeholders to translate complex data into actionable strategies. Experienced in mentoring teams and leading high-impact analytics projects at top-tier organizations like **PayPal** and **Uber**.

WORK EXPERIENCE

Senior Product / Lead Analyst | PayPal

Bangalore | April 2023 – Present - **data Automation & BI Solutions**: Designed and maintained robust **Power BI/ Looker dashboards**, providing real-time visibility into key performance indicators (KPIs) for **100+ global stakeholders**, directly supporting strategic decision-making. - **Strategic Collaboration**: Partnered with Product and Operations leaders to define **success metrics** and **lifecycle goals**, translating business needs into automated data insights that influenced product roadmaps. - **Advanced Analytics & Scripting**: Leveraged **Python and SQL** to build efficient **ETL pipelines**, automating complex data workflows and ensuring data accuracy across millions of records. - **Team Leadership & Mentoring**: Mentored junior analysts on **best practices in data visualization**, **coding standards**, and **stakeholder communication**, fostering a high-performance analytics culture. - **Impact Analysis**: Conducted rigorous **Root Cause Analysis** and **Hypothesis Testing** to identify growth opportunities, delivering insights that optimized customer retention strategies.

Product Analyst | OLX Autos

Gurgaon | July 2022 – March 2023 - **Operational Efficiency**: Streamlined data processes for the "Sell-It-Yourself" vertical, utilizing **SQL and Python** to analyze deep user behavior trends and optimize lead conversion funnels. - **A/B Testing & Optimization**: Led end-to-end **A/B testing** initiatives that increased lead generation by **10%**, validating strategic changes to the user journey through statistical rigor. - **Market Strategy**: Analyzed marketing effectiveness across diverse segments to identify high-ROI channels, directly informing budget allocation and acquisition strategies.

Business Analyst | Uber

Hyderabad | August 2021 – July 2022 - **Process Automation**: Spearheaded the automation of **35+ BAU reports** using **Python (Pandas)** and **SQL**, saving the team **5+ hours of manual effort weekly** and significantly reducing human error. - **Performance Dashboards**: Built dynamic, automated dashboards for the **Uber for Business (U4B)** unit, utilizing **SQL** to integrate disparate data sources and track operational KPIs in real-time. - **Financial Impact Analysis**: Performed in-depth financial modelling to evaluate operational bottlenecks, recommending process improvements that resulted in measurable cost savings. - **Cross-Functional Partnering**: Acted as a bridge between technical teams and business operations, ensuring that data solutions aligned perfectly with fast-evolving operational needs.

Analyst I Aditya Birla Group

Bangalore | July 2018 – July 2021 - **Supply Chain Analytics:** Supported operations teams by performing **Root Cause Analysis** on process inefficiencies, directly contributing to improved yield and reduced downtime. - **Demand Forecasting:** Collaborated with cross-functional partners to improve **forecast accuracy**, optimizing inventory management through data-driven inputs. - **Data Management:** Organized and standardized complex industrial datasets to facilitate automated reporting and strategic benchmarking.

EDUCATION

B.Tech in Chemical Engineering *BITS Pilani | 2014 – 2018*

SKILLS

- **Languages & Scripting:** SQL (Expert), Python (Pandas, NumPy), Excel (Advanced/VBA), Git
- **Visualization & BI:** Power BI, Tableau, Looker Studio, Google Data Studio
- **Cloud & Data Engineering:** Google Cloud Platform (GCP), BigQuery, AWS, Basic ETL
- **Analytical Methods:** Root Cause Analysis, Automation, Hypothesis Testing, A/B Testing, Regression
- **Core Competencies:** Stakeholder Management, Strategic Planning, Process Improvement, Mentoring
