PROFESSIONAL SUMMARY

Results-oriented **Senior Analyst** with 7+ years of experience in designing scalable **Tableau Dashboards**, **Data Solutions**, and **Analytics Infrastructure**. Expert in **Advanced SQL**, **Tableau Performance Optimization**, and **ETL/ELT workflows** (Tableau Prep, Python). Proven track record of translating business requirements into actionable **Visualizations** and empowering teams with data-driven insights in **Supply Chain** and **Operations** domains at top-tier organizations like **PayPal**, **Uber**, and **Aditya Birla Group**.

EXPERIENCE

Senior Product / Lead Analyst, PayPal – Bangalore

April 2023 – Present

- **Tableau & Reporting Solutions:** Designed and maintained interactive **Tableau dashboards** and semantic layers to track key operational metrics, ensuring **data accuracy** and consistency for executive reporting.
- **Scalable Data Pipelines:** Orchestrated **ETL/ELT pipelines** using **SQL and Python**, integrating data from multiple sources (Snowflake, Teradata) to support high-performance reporting and analytics.
- **Performance Optimization:** Optimized complex SQL queries and **Tableau extracts**, reducing dashboard load times and improving report availability for cross-functional business teams.
- **Data Governance:** Collaborated with engineering teams to implement **data quality** checks and validation frameworks, ensuring reliability across all analytical outputs.
- **Mentorship:** Mentored junior analysts in **Tableau best practices**, **SQL optimization**, and **data storytelling**, fostering a culture of technical excellence.

Product Analyst, OLX Autos – Gurgaon

July 2022 – March 2023

- **Global Dashboards:** Developed global-scale **Tableau visualizations** to monitor funnel performance, empowering business leads to identify trends and optimize **media spend allocation**.
- **Data Modeling:** Built robust **dimensional models** and metrics layers, translating complex business logic into clean, reusable data sources for self-service analytics.
- **Automated Insights:** Utilized **Python** scripts to automate data cleaning and report distribution, saving **10+ hours of manual effort** per week.

Business Analyst, Uber – Hyderabad

August 2021 – July 2022

- **Operations Analytics:** Optimized **logistics workflows** for **Uber for Business (U4B)** by building dynamic **Tableau dashboards** to monitor supply chain metrics and identify bottlenecks.
- **Process Improvement:** Automating **35+ operational reports** via efficient **SQL scripting**, significantly reducing manual data retrieval time and enabling real-time decision-making.
- **Root Cause Analysis:** Conducted rigorous analysis of data discrepancies, ensuring **data integrity** and trust in critical operational reports.

Analyst, Aditya Birla Group – Bangalore

July 2018 – July 2021

- **Supply Chain Analytics:** Performed deep-dive analysis on **manufacturing and supply chain data** to identify inefficiencies, utilizing **statistical methods** to improve yield and optimize inventory.
- **Inventory Optimization:** leveraging data-driven approaches to improve **forecast accuracy** and streamline **supply chain operations**, directly impacting cost savings.

EDUCATION

B.Tech in Chemical Engineering, BITS Pilani

2014 – 2018

SKILLS

- **BI & Visualizations:** Tableau (Desktop, Server, Prep, Cloud), Power BI, LOD Expressions, Dashboard Optimization
- **Data Engineering:** Advanced SQL, ETL/ELT, Data Modeling, Snowflake, Redshift, Airflow
- **Languages:** Python (Pandas, NumPy), R, SQL (Window Functions, CTEs)
- **Domains:** Supply Chain, Operations, Finance, Product Analytics
