PROFESSIONAL SUMMARY

Results-oriented **Senior Data Scientist** with over 7 years of experience in **Scalable Analytical Solutions**, **Econometric Modeling**, and **ROI Measurement**. Expert in designing and deploying **Data Processing Systems** and **Causal Analysis** frameworks to drive business decisions. Proficient in **Python** (Pandas, Scikit-learn), **Spark**, **SQL**, and **Cloud Platforms** (AWS/Azure). Proven track record of orchestrating solutions for **Marketing**, **Pricing**, and **Product Optimization** at top-tier organizations like **PayPal**, **Uber**, and **OLX**, delivering tangible impact on revenue and operational efficiency.

EXPERIENCE

Senior Product / Lead Analyst, PayPal – Bangalore

April 2023 – Present

- **Scalable Analytical Solutions:** Led the research and development of **data solutions** for key operational pillars, designing **automated pipelines** using **Python and SQL** to support scalable reporting and insight generation.
- **Causal Analysis & ROI:** Developed advanced **econometric** and **statistical models** to measure the **ROI** of product features and marketing initiatives, establishing causal relationships between user engagement and financial outcomes.
- **Experimentation & A/B Testing:** Designed **A/B testing frameworks** to validate hypothesis-driven strategies, analyzing **user behavior** to optimize product performance and maximize **return on investment**.
- **Data Engineering Workflows:** Orchestrated **ETL pipelines** and data processing workflows, reducing manual reporting data retrieval time by **40%+** and ensuring data quality for cross-functional teams.
- **Mentorship:** Mentored junior associates in **machine learning techniques**, **modern analytics programming**, and best practices in data science, fostering a culture of technical excellence.

Product Analyst, OLX Autos – Gurgaon

July 2022 – March 2023

- **Marketing Optimization:** Analyzed **marketing channel performance** to identify high-ROI opportunities, designing strategies that improved **lead conversion** and optimized **media spend allocation**.
- **Uplift Modeling:** Implemented **Uplift Modeling** and **causal inference techniques** to refine user targeting for the "Sell-It-Yourself" journey, resulting in a **10% increase** in qualified leads.
- **Data Processing Systems:** Utilized **SQL and Python** to build robust **data processing systems**, enabling real-time tracking of funnel metrics and empowering business teams with actionable insights.

Business Analyst, Uber – Hyderabad

August 2021 – July 2022

- **Operations & Logistics Analytics:** Optimized **shipping and logistics** workflows for **Uber for Business (U4B)** by automating **35+ operational reports**, saving **5+ hours of manual effort weekly**.
- **Process Flow Design:** Documented and designed **analytical process flows**, building dynamic **dashboards** to monitor supply chain metrics and identify bottlenecks.
- **Financial Modeling:** Conducted in-depth **financial modeling** and **root cause analysis** to evaluate operational costs and drive **pricing strategies**, resulting in significant cost savings.

Analyst, Aditya Birla Group – Bangalore

July 2018 – July 2021

- **Supply Chain Optimization:** Performed rigorous analysis on **manufacturing data** to identify inefficiencies, utilizing **statistical methods** to improve yield and reduce downtime.
- **Demand Forecasting:** Collaborated with cross-functional teams to improve **forecast accuracy**, utilizing data-driven approaches to optimize inventory levels and meet market demand.

EDUCATION

B.Tech in Chemical Engineering, BITS Pilani

2014 – 2018

SKILLS

- **Programming:** Python (Pandas, NumPy, Scikit-learn), Spark, SQL, Scala, R
- **Data Science:** Machine Learning, Econometrics, Causal Inference, A/B Testing, ROI Measurement
- **Tools & Platforms:** Tableau, Power BI, Excel (Advanced), AWS, Azure, Docker, CI/CD
- **Core Competencies:** Stakeholder Management, Strategic Planning, Data Processing, Agile/Scrum
