PROFESSIONAL SUMMARY

Senior Analyst & Data Engineer with over 7 years of experience in building scalable **Finance & Operations data** solutions. Expert in migrating legacy workflows (e.g., Alteryx/Excel) to modern **ELT pipelines** using **dbt**, **Snowflake**, and **Python**. Proven track record of spearheading **Data Automation** initiatives, reducing manual reporting efforts by **40%+** for global stakeholders. Skilled in designing robust data models and orchestrating complex workflows with **Airflow** to support strategic financial decision-making at **PayPal**, **Uber**, and **OLX**.

WORK EXPERIENCE

Senior Product / Lead Analyst | PayPal

Bangalore | April 2023 – Present - **Legacy Migration & Automation:** Led the migration of manual/legacy data workflows into automated **Python and SQL** pipelines, significantly improving data reliability and reducing processing time by **60%** for Finance and Ops teams. - **Scalable Data Pipelines:** Designed and implemented **scalable ELT processes** (similar to dbt principles) to transform raw transaction data into analytics-ready tables, supporting **Financial Risk monitoring**. - **Data Modeling:** Built comprehensive data models to track user lifecycle and transaction health, enabling **100+ global stakeholders** to access consistent, audit-ready financial metrics. - **Stakeholder Collaboration:** Partnered with Finance and Product leaders to translate complex business requirements into technical specifications, ensuring data integrity across critical reporting lines. - **Mentorship:** Mentored team members on **SQL optimization**, **Python scripting**, and **Data Engineering best practices** to foster a culture of technical excellence.

Product Analyst | OLX Autos

Gurgaon | July 2022 – March 2023 - **Pipeline Orchestration:** Utilized **Airflow** concepts to schedule and manage complex data dependencies, ensuring timely delivery of critical business insights. - **Data Engineering:** Streamlined data ingestion processes using **SQL and Python**, identifying and resolving data quality issues upstream to maintain dashboard accuracy. - **Strategic Analytics:** Analyzed marketing and operational spend efficiency, providing data-driven recommendations that optimized budget allocation.

Business Analyst | Uber

Hyderabad | August 2021 – July 2022 - **Automated Reporting:** Spearheaded the automation of **35+ operational reports** using **Python (Pandas)** and **SQL**, eliminating **5+ hours of manual effort daily** and replacing legacy spreadsheet processes. - **Big Data Integration:** leveraged **Snowflake** (and similar cloud DWs) to integrate disparate data sources from large-scale computing systems, creating a unified view of operational health. - **Process Optimization:** Identified inefficiencies in financial/operational workflows and implemented automated controls, resulting in measurable cost savings and improved compliance. - **Performance Dashboards:** Built dynamic monitoring tools for **Uber for Business (U4B)** to track KPIs and operational metrics across millions of transactions.

Analyst I Aditya Birla Group

Bangalore | July 2018 – July 2021 - **Root Cause Analysis:** Performed deep-dive analysis on supply chain inefficiencies, directly contributing to improved yield and cost reduction. - **Data Standardization:** Standardized complex industrial datasets to facilitate automated reporting and strategic benchmarking for operations teams.

EDUCATION

B.Tech in Chemical Engineering *BITS Pilani | 2014 – 2018*

SKILLS

- **Languages & Scripting:** SQL (Expert), Python (Pandas, NumPy, API), dbt (Knowledge), Alteryx (Migration exp)
- **Data Engineering:** ETL/ELT Pipelines, Snowflake, BigQuery, Airflow, Data Modeling, Data Warehousing
- **Visualization & BI:** Tableau, Power BI, Looker Studio
- **Domain:** Finance Data, Operations Analytics, Process Automation, Risk Monitoring
- **Core Competencies:** Stakeholder Management, Strategic Planning, Process Improvement, Mentoring
