PROFESSIONAL SUMMARY

Results-driven **Data & Analytics professional** with over 6 years of experience in building scalable **data infrastructure**, optimizing **ETL/ELT pipelines**, and delivering mission-critical insights for global organizations like **PayPal**, **Uber**, and **Aditya Birla Group**. Expert in **SQL**, **Python (Pandas, NumPy)**, and **Cloud Platforms (AWS, GCP)**. Proven track record in transitioning raw manufacturing and product data into actionable business intelligence through automated systems and advanced analytics.

WORK EXPERIENCE

Senior Product & Data Analyst | PayPal

Bangalore | April 2023 – Present - **Data Pipeline Optimization**: Partnered with Product and Engineering to architect scalable **data pipelines** for tracking Shopping performance, directly influencing roadmaps for 100+ stakeholders. - **Scalable Infrastructure**: Developed and maintained **Tableau dashboards** for PayPal Shopping, integrating 50+ KPIs from diverse data sources to provide real-time strategic visibility. - **Strategic Data Modeling**: Engineered automated forecasting models to identify business opportunities, leading to optimized investment priorities across global markets. - **Mentorship & Best Practices**: Mentored junior analysts on **SQL/Python best practices**, performance optimization, and **A/B test design** to ensure data integrity and reliability.

Product Analyst | OLX Autos

Gurgaon | July 2022 – March 2023 - **A/B Testing & Data Engineering**: Reduced Zero Result Pages (ZRP) by 40% through rigorous, data-driven **A/B testing**, significantly improving search engine efficiency and user experience. - **Feature Engineering**: Led the end-to-end data strategy for a car comparison feature, driving a **10% increase in lead generation** through optimized data flows and user behavior analysis. - **Big Data Analytics**: Leveraged **BigQuery** and **GCP** to uncover friction points in the user journey, supporting global product growth initiatives.

Business Analyst | Uber

Hyderabad | August 2021 – July 2022 - **ETL Automation**: Built and automated **35+ production-grade BAU reports** using **Python (Pandas, NumPy)** and Google Sheets, saving **5+ hours of manual effort weekly**. - **Dashboard Architecture**: Designed and implemented a dynamic **U4B dashboard** from scratch using **Power BI**, enabling automated daily data updates and real-time operational monitoring. - **Stakeholder Intelligence**: Partnered with cross-functional teams to distill complex operational data into actionable **Business Intelligence** for regional leadership.

Analyst (Manufacturing & Operations) | Aditya Birla Group

Bangalore | July 2018 – July 2021 - **Operational Data Infrastructure**: Supported production and operations teams by building data models to analyze **yield**, **process efficiency**, and **inventory data**. - **Industrial Process Optimization**: Identified manufacturing bottlenecks and recommended cost-saving improvements for **automation and process robotics** through detailed data analysis. - **IoT-Ready Analytics**: Leveraged **Industrial Engineering** principles to

optimize supply chain data flows and production line performance, laying the groundwork for smart manufacturing initiatives.

EDUCATION

B.Tech in Chemical Engineering *BITS Pilani I 2014 – 2018*

SKILLS

- **Programming & Scripting:** SQL (Expert), Python (Pandas, NumPy, Scikit-learn), PySpark, R, Git
- **Data Engineering:** ETL/ELT Pipeline Architecture, Apache Spark, Airflow, Databricks, Data Modeling
- **Cloud Platforms:** AWS (S3, Redshift), GCP (BigQuery), Azure
- **Visualization & BI:** Tableau, PowerBI, Looker, Google Data Studio
- **Advanced Analytics:** A/B Testing, Predictive Modelling, Statistical Analysis, NLP, Machine Learning
- **Manufacturing/Industrial:** Lean Manufacturing, VSM, MES Data Analytics, Automation Technology

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** – Coursera
