PROFESSIONAL SUMMARY

Results-oriented **Senior Data Science Analyst** with over 7 years of experience in **Financial Crime Prevention**, **Risk Analytics**, and **Fraud Detection**. Expert in developing scalable data solutions using **SQL**, **Python**, and **Machine Learning** to mitigate loss and ensure platform integrity. Proven track record of designing **Risk Models**, enhancing **Rule Performance**, and conducting **Anomaly Detection** for high-volume global platforms. Experienced in partnering with Product and Policy leaders to translate complex fraud patterns into actionable strategies at top-tier organizations like **PayPal**, **Uber**, and **OLX**.

WORK EXPERIENCE

Senior Product / Lead Analyst | PayPal

Bangalore | April 2023 – Present - **Financial Crime & Risk Strategy**: Partnered with Risk and Compliance leaders to **translate regulatory requirements** into automated data solutions, directly strengthening the **Financial Crime (FC)** prevention framework. - **Fraud Detection & Rule Performance**: Designed and maintained robust dashboards to monitor **fraud rule performance** and **false positive rates**, providing real-time visibility into transaction risk for **100+ global stakeholders**. - **Advanced Risk Analytics**: Leveraged **Python and SQL** to execute complex analyses on **transaction models**, identifying emerging fraud patterns and optimizing rule logic to minimize financial loss. - **Impact Analysis**: Conducted rigorous **Root Cause Analysis** on fraud incidents, delivering insights that led to targeted policy changes and improved **loss mitigation strategies**. - **Team Leadership**: Mentored junior analysts on **best practices in risk modeling**, **anomaly detection**, and **stakeholder communication**, fostering a high-performance risk analytics culture.

Product Analyst | OLX Autos

Gurgaon | July 2022 – March 2023 - **Trust & Safety**: Led data initiatives to identify and mitigate platform abuse, analyzing user behavior trends to detect **suspicious listings** and **bad actors**. - **Experimentation & A/B Testing**: Championed **A/B testing** validation for new trust signals and verification flows, reducing fraudulent lead generation while maintaining user conversion. - **Automated Monitoring**: Developed automated alerts using **SQL** to flag anomalous activity in real-time, enabling rapid response to potential integrity threats.

Business Analyst | Uber

Hyderabad | August 2021 – July 2022 - **Automated Risk Monitoring**: Spearheaded the automation of **35+ risk and operational reports** using **Python (Pandas)** and **SQL**, saving the team **5+ hours of manual effort daily** in monitoring high-risk activities. - **Anomaly Detection at Scale**: Built dynamic dashboards utilizing **SQL** to track operational anomalies and compliance breaches across **millions of transactions** for **Uber for Business (U4B)**. - **Process Optimization**: Performed in-depth analysis of operational workflows to identify vulnerabilities, recommending process controls that significantly reduced exposure to internal and external fraud. - **Financial Impact**: quantified the financial impact of risk gaps, driving initiatives that resulted in measurable cost savings and recovered revenue.

Analyst I Aditya Birla Group

Bangalore | July 2018 – July 2021 - **Root Cause Analysis:** Supported operations teams by performing deep-dive analysis on process deviations, contributing to improved compliance and standardized protocols. - **Data Standardization:** Organized and standardized complex industrial datasets to facilitate accurate **regulatory reporting** and strategic benchmarking.

EDUCATION

B.Tech in Chemical Engineering *BITS Pilani | 2014 – 2018*

SKILLS

- **Languages & Scripting:** SQL (Expert), Python (Pandas, NumPy, Scikit-learn), R, Excel (Advanced/VBA)
- **Risk & Fraud Domain:** Financial Crime (FC), Anti-Money Laundering (AML), Fraud Detection, Risk Modeling, Anomaly Detection
- **Visualization & BI:** Power BI, Tableau, Looker Studio, Google Data Studio
- **Analytical Methods:** Root Cause Analysis, Hypothesis Testing, A/B Testing, Statistical Modeling
- **Core Competencies:** Stakeholder Management, Strategic Planning, Process Improvement, Mentoring
